FUTURES

Index to Volume 9

No 1 February 1977 — No 4 August 1977
No 2 April 1977 — No 5 October 1977
No 3 June 1977 — No 6 December 1977

Accounting for the future. *David Pearce*. 9.5, 360–364
Adaptive planning and uncertainty resolution. *Per Strangert*. 9.1, 32–44
Application of artificial intelligence to medicine – The. *L. Stephen Coles*. 9.4, 315–323
Biological futures – are there any? (Comment). *Arthur Bourne*. 9.1, 2
Carbon: the real limit to growth. (Futures essay) *P. Kelly*. 9.4, 324–334
Causal structure of economic models – The. *Emilio Fontela* and *Manfred Gilli*. 9.6, 510–518
China's future: a Delphi forecast. *Vaclav Smil*. 9.6, 474–489
Chemical industry – Forecasting technology: luck and judgement in the. *H. Wiener*. 9.3, 182–193
Corporate planning – Scenario development for. *C. A. R. MacNulty*. 9.2, 128–138
Cross-impact analysis – Scenario generation: limitations and developments in causal. *R. B. Mitchell, J. Tydeman and R. Curnow*. 9.3, 205–215
Cross-impact model – A Markovian. *Joël Eymard*. 9.3, 216–228
Decision makers – Modelling the influence of: on the future. *Colin Eden*. 9.4, 272–284
Delphi and causal cross-impact analysis – Problems in futures research. *Olaf Helmer*. 9.1, 17–31
Delphi and short-term market forecasting. (Report). 9.2, 171–172
Delphi forecast – China's future. *Vaclav Smil*. 9.6, 474–489
Demographic change for Europe – Economics of welfare. *H. M. Wirz*. 9.1, 45–52
Dilemmas of a developing society: India. (Report) *Aqueil Ahmad*. 9.3, 259–262
Discounting and depletion: the case of tropical forests. *Norman Myers*. 9.6, 502–509
Discounting and intergenerational equity. *Talbot Page*. 9.5, 377–382
East–West relations: the challenge of change. (Editorial comment) 9.3, 174
Economic criteria for intergenerational comparisons. *E. J. Mishan*. 9.5, 383–403
Economic evaluation of long-run uncertainties – The. *Robert H. Haveman*. 9.5, 365–374
Economic models – The causal structure of. *Emilio Fontela* and *Manfred Gilli*. 9.6, 510–518
Economics of welfare: the implications of demographic change for Europe. *H. M. Wirz*. 9.1, 45–52
Edinburgh's Nevis Institute. (Report) 9.6, 550
Equity, efficiency, and discounting: the reasons for discounting intergenerational effects. *A. Myrick Freeman III*. 9.5, 375–376
European passenger transport: four strategies for the year 2000. (Report). 9.6, 546–549
European transport over the next 25 years. *Gabriel Bouladon*. 9.4, 264–271
Forecasting technology: luck and judgement in the chemical industry. *H. Wiener*. 9.3, 182–193
Futures research in India: problems and policies. (Report) *P. K. Rohatgi, K. Rohatgi and B. Bowonder*. 9.5, 451–454
General-purpose model: observations on SARUM 76 – The. *J. A. Clark, J. M. McLean and P. Shepherd*. 9.3, 229–233
Global modelling project – SARUM 76. *P. C. Roberts*. 9.1, 3–16
Growth of growth – The. *Leon Martel*. 9.2, 94–102
Herbert Marcuse: aspirations and utopia. (From prophecy to prediction) *Donald Gordon*. 9.2, 147–151
Ideologies of ideality – The. (From prophecy to prediction) *I. F. Clarke*. 9.5, 432–434
Images from school: the views of Italian teachers and pupils. (Report) *L. Pelizzoli, M. C. Lombardini* and *D. Martino*. 9.2, 160–168
India – Dilemmas of a developing society. (Report) *Aqueil Ahmad*. 9.1, 259–262
India: problems and policies – Futures research in. (Report) *P. K. Rohatgi, K. Rohatgi* and *B. Bowonder*. 9.5, 451–454
Interest in the future: a search for useable measures. *Roger D. Evered*. 9.4, 285–302
Interfutures: the OECD research project. (Report) *Daniel Malkin* and *Giuseppe Sacco*. 9.3, 255–258
Intergenerational comparisons – Economic criteria for. *E. J. Mishan*. 9.5, 383–403
Intergenerational equity – Discounting and. *Talbot Page*. 9.5, 377–382
Long-range planning in the public sector. *B. Schwarz*. 9.2, 115–127
Management training in futures concepts. *Burt Nanus*. 9.3, 194–204
Markovian cross-impact model – A. *Joël Eymard*. 9.3, 216–228
Medicine – The application of artificial intelligence to. *L. Stephen Coles*. 9.4, 315–323
Modelling the influence of decision makers on the future. *Colin Eden*. 9.4, 272–284
National plan: thirty years of French experience – Preparing a. *Bernard Brunhes*. 9.3, 175–181
Nuclear warfare: the illusion of accurate forecasting. *Roger Beaumont*. 9.1, 53–57
Post-industrial society: the myth of the service economy. *J. I. Gershuny*. 9.2, 103–114
Post-industrial society – The two visions of. *Michael Marien*. 9.5, 415–431
Prediction and social change: the need for a basis in theory. *Gordon Rattray Taylor*. 9.5, 404–414
Preparing a national plan: thirty years of French experience. *Bernard Brunhes*. 9.3, 175–181
Problem of values in futures research – The. *Jib Fowles*. 9.4, 303–314
Problems in futures research: Delphi and causal cross-impact analysis. *Olaf Helmer*. 9.1, 17–31
Public sector – Long-range planning in the. *B. Schwarz*. 9.2, 115–127
Saint-Simon and the conquest of the future. (From prophecy to prediction) *Keith Taylor*. 9.1, 58–64
SARUM 76: a global modelling project. *P. C. Roberts*. 9.1, 3–16
SARUM 76 – The general-purpose model: observations on. *J. A. Clark, J. M. McLean* and *P. Shepherd*. 9.3, 229–234
Scenario development for corporate planning. *C. A. R. MacNulty*. 9.2, 128–138
Scenario generation: limitations and developments in causal cross-impact analysis. *R. B. Mitchell, J. Tydeman* and *R. Curnow*. 9.3, 205–215
Service economy – Post-industrial society: the myth of the. *J. I. Gershuny*. 9.2, 103–114
Social change: the need for a basis in theory – Prediction and. *Gordon Rattray Taylor*. 9.5, 404–414
Soviet Union, the future, and futures research – The. (From prophecy to prediction) *John Erickson*. 9.4, 335–339
Stabilisation in systems: chreods and epigenetic landscapes. *C. H. Waddington*. 9.2, 139–146
Sweden's Secretariat: programmes and policies. (Report) *Björn Wittrock*. 9.4, 351–357
Swedish defence planning. (Report) *Sven Hellman*. 9.1, 79–86
Transport over the next 25 years – European. *Gabriel Bouladon*. 9.4, 264–271
Traps of time and space – The. (From prophecy to prediction) *T. A. Shippey*. 9.3, 234–240
Tube of plenty: towards an "age of television" – The. (From prophecy to prediction) *Asa Briggs*. 9.6, 519–525
Two visions of post-industrial society – The. *Michael Marien*. 9.5, 415–431
Uncertainty resolution – Adaptive planning and. *Per Strangert*. 9.1, 32–44
Unesco backs international research on human needs. (Report) *Daniel Behrman*. 9.2, 169–170
Values in futures research – The problem of. *Jib Fowles*. 9.4, 303–314
Weakness of Western culture—The. *Geoffrey Vickers*. 9.6 457–473.
Weather modification: principles for international agreement *Edith Brown Weiss*. 9.6, 490–501
What can ungovernability mean? (Comment) *Richard Rose*. 9.2, 92–93
Why is there no US national plan? (Comment) *Roy Amara*. 9.6, 456

Authors

Ahmad, Aqueil. Dilemmas of a developing society: India. (Report) 9.3, 259–262

Amara, Roy. Why is there no US national plan? (Comment) 9.6, 456
